Index of Subjects

Absorption
Assessment of zinc bioavailability: studies in rats on zinc absorption from wheat using radio- and stable isotopes. **71**, 95, 1994
Absorption of lysine and methionine from the proximal colon of the piglet. **71**, 739, 1994
Adolescence
Dietary patterns among adolescents in the West of Scotland. **71**, 111, 1994
Dietary intake and micronutrient status of adolescents: effect of vitamin and trace element supplementation on indices of status and performance in tests of verbal and non-verbal intelligence. **71**, 897, 1994
Adult food consumption
Principal sources of dietary fat in Australia: evidence from apparent consumption data and the national dietary survey of adults. **71**, 753, 1994
β-Agonists
The effect of acute and chronic administration of the β-agonist, cimaterol, on protein synthesis in ovine skin and muscle. **71**, 501, 1994
Alcohol
Effect of alcohol on glucose, insulin, free fatty acid and triacylglycerol responses to a light meal in non-insulin-dependent diabetic subjects. **71**, 449, 1994
Amino acids
Comparison of the ileal and faecal digestibility of dietary amino acids in adult humans and evaluation of the pig as a model animal for digestion studies in man. **71**, 29, 1994
Use of guanidinated dietary protein to measure losses of endogenous amino acids in poultry. **71**, 515, 1994
Utilization of ileal digestible amino acids by growing pigs: isoleucine. **71**, 531, 1994
Absorption of lysine and methionine from the proximal colon of the piglet. **71**, 739, 1994
Ammonia production
Seasonality in digestion and rumen metabolism in red deer (*Cervus elaphus*) fed on a forage diet. **71**, 489, 1994
Anaemia
Absorption of iron from ferric hydroxypyranone complexes. **71**, 203, 1994
Comparison between time-dependent changes in iron metabolism of rats as induced by marginal deficiency of either vitamin A or iron. **71**, 687, 1994
Animal foods
Principal sources of dietary fat in Australia: evidence from apparent consumption data and the national dietary survey of adults. **71**, 753, 1994
Anthropometry
Anthropometric values in an elderly French population. **71**, 295, 1994
Prediction equations for the estimation of body composition in the elderly using anthropometric data. **71**, 823, 1994
Ascorbic acid
Dietary ascorbic acid lowers the concentration of soluble copper in the small intestinal lumen of rats. **71**, 701, 1994
Baked beans
Effect of baked beans (*Phaseolus vulgaris*) on steroid metabolism and non-starch polysaccharide output of hypercholesterolaemic pigs with or without an ileo-rectal anastomosis. **71**, 871, 1994
Bile
Effects of rye bran, oat bran and soya-bean fibre on bile composition, gallstone formation, gall-bladder morphology and serum cholesterol in Syrian golden hamsters (*Mesocricetus auratus*). **71**, 861, 1994
Increasing intakes of iron reduce status, absorption and biliary excretion of copper in rats. **71**, 887, 1994
Bioefficiency
Bioefficiency of different tocopherols in chicken as assessed by haemolysis test and microsomal pentane production. **71**, 605, 1994
Bio-electrical impedance
Between-laboratory comparison of densitometry and bio-electrical impedance measurements. **71**, 309, 1994
Blood biochemistry
Effect of alcohol on glucose, insulin, free fatty acid and triacylglycerol responses to a light meal in non-insulin-dependent diabetic subjects. **71**, 449, 1994
Blood flow
The effect of meal size on the cardiovascular responses to feed ingestion. **71**, 835, 1994
Blood galactose kinetics
The response in the blood of piglets to oral doses of galactose and glucose and intravenous administration of galactose. **71**, 553, 1994
Blood lipids
Changes in fatty acid compositions of total serum and lipoprotein particles, in growing rats given protein-deficient diets with either hydrogenated coconut or salmon oils as fat sources. **71**, 375, 1994
Blood pressure
Parental death from cardiovascular disease and dietary habits in an elderly group. **71**, 259, 1994
Body composition
Between-laboratory comparison of densitometry and bio-electrical impedance measurements. **71**, 309, 1994
Body composition and fat distribution during the first 2 weeks of gestation in *ad lib.*-fed and energy-restricted rats. **71**, 317, 1994

Prediction equations for the estimation of body composition in the elderly using anthropometric data. **71**, 823, 1994

Body weight

Trends in eating patterns, physical activity and socio-demographic factors in relation to post-partum body weight development. **71**, 457, 1994

Bone mineral density

Dietary calcium intake relates to bone mineral density in premenopausal women. **71**, 77, 1994

Branched-chain fatty acids

Cobalt–vitamin B_{12} deficiency causes accumulation of odd-numbered, branched-chain fatty acids in the tissues of sheep. **71**, 67, 1994

Breath hydrogen

Breath hydrogen after ingestion of the bulk sweeteners sorbitol, isomalt and sucrose in chocolate. **71**, 731, 1994

Caecum

Evaluation of fermentability of acid-treated maize husk by rat caecal bacteria *in vivo* and *in vitro*. **71**, 719, 1994

Calcium

Dietary calcium intake relates to bone mineral density in premenopausal women. **71**, 77, 1994

$NaFe^{3+}EDTA$ as a food fortificant: influence on zinc, calcium and copper metabolism in the rat. **71**, 85, 1994

Passive uptake in the small intestine and active uptake in the hindgut contribute to the highly efficient mineral metabolism of the common mole-rat, *Cryptomys hottentotus*. **71**, 573, 1994

Calcium absorption and bone utilization in spontaneously hypertensive rats fed on native and heat-damaged casein and soya-bean protein. **71**, 583, 1994

Cancer

Dietary level of maize oil affects growth and lipid composition of Walker 256 carcinosarcoma. **71**, 283, 1994

Carcass energy deposition

Modification of energy metabolism by the presence of the gut microflora in the chicken. **71**, 709, 1994

Cardiac output

The effect of meal size on the cardiovascular responses to feed ingestion. **71**, 835, 1994

Cardiomyocytes

A study on lipid metabolism in heart and liver of cholesterol- and pectin-fed rats. **71**, 181, 1994

Cardiovascular disease

Parental death from cardiovascular disease and dietary habits in an elderly group. **71**, 259, 1994

Caseinophosphopeptides

Calcium absorption and bone utilization in spontaneously hypertensive rats fed on native and heat-damaged casein and soya-bean protein. **71**, 583, 1994

Catechin

Degradation of polyphenols (catechin and tannic acid) in the rat intestinal tract. Effect on colonic fermentation and faecal output. **71**, 933, 1994

Childhood

Persistent diarrhoea: efficacy of a rice-based diet and role of nutritional status in recovery and nutrient absorption. **71**, 123, 1994

Plasma lipid concentrations in children with cystic fibrosis: the value of a high-fat diet and pancreatic supplementation. **71**, 959, 1994

Chocolate

Breath hydrogen after ingestion of the bulk sweeteners sorbitol, isomalt and sucrose in chocolate. **71**, 731, 1994

Cholesterol

A study on lipid metabolism in heart and liver of cholesterol- and pectin-fed rats. **71**, 181, 1994

Chymotrypsin

Effect of condensed tannins in hulls of faba beans (*Vicia faba* L.) on the activities of trypsin (*EC* 2.4.21.4) and chymotrypsin (*EC* 2.4.21.1) in digesta collected from the small intestine of pigs. **71**, 627, 1994

Cimaterol

The effect of acute and chronic administration of the β-agonist, cimaterol, on protein synthesis in ovine skin and muscle. **71**, 501, 1994

Coconut oil

Changes in fatty acid compositions of total serum and lipoprotein particles, in growing rats given protein-deficient diets with either hydrogenated coconut or salmon oils as fat sources. **71**, 375, 1994

Colonic fermentation

Breath hydrogen after ingestion of the bulk sweeteners sorbitol, isomalt and sucrose in chocolate. **71**, 731, 1994

Degradation of polyphenols (catechin and tannic acid) in the rat intestinal tract. Effect on colonic fermentation and faecal output. **71**, 933, 1994

Condensed tannins

Effect of condensed tannins in hulls of faba beans (*Vicia faba* L.) on the activities of trypsin (*EC* 2.4.21.4) and chymotrypsin (*EC* 2.4.21.1) in digesta collected from the small intestine of pigs. **71**, 627, 1994

Proanthocyanidins inhibit hydrolysis of leaf proteins by rumen microflora *in vitro*. **71**, 947, 1994

Connective tissue

Vitamin B_6 deficiency experimentally-induced bone and joint disorder: microscopic, radiographic and biochemical evidence. **71**, 919, 1994

Copper

$NaFe^{3+}EDTA$ as a food fortificant: influence on zinc, calcium and copper metabolism in the rat. **71**, 85, 1994

Iron, copper and zinc status in rats fed on diets containing various concentrations of tin. **71**, 103, 1994

Dietary ascorbic acid lowers the concentration of soluble copper in the small intestinal lumen of rats. **71**, 701, 1994

Increasing intakes of iron reduce status, absorption and biliary excretion of copper in rats. **71**, 887, 1994

Coronary heart disease

Trends in individual fat consumption in the UK 1900–1985. **71**, 775, 1994

Cysteine
Effect of food intake on energy and protein metabolism in the skin of Romney sheep. **71**, 647, 1994

Cystic fibrosis
Plasma lipid concentrations in children with cystic fibrosis: the value of a high-fat diet and pancreatic supplementation. **71**, 959, 1994

Densitometry
Between-laboratory comparison of densitometry and bio-electrical impedance measurements. **71**, 309, 1994

Diet
Dietary patterns among adolescents in the West of Scotland. **71**, 111, 1994
Dietary indices of atherogenicity and thrombogenicity and ischaemic heart disease risk: the Caerphilly Prospective Study. **71**, 249, 1994
Parental death from cardiovascular disease and dietary habits in an elderly group. **71**, 259, 1994
Trends in eating patterns, physical activity and socio-demographic factors in relation to post-partum body weight development. **71**, 457, 1994

Dietary fat
Determinants of plasma cholesterol responsiveness to diet. **71**, 271, 1994
Trends in individual fat consumption in the UK 1900–1985. **71**, 775, 1994

Dietary fibre
Effects of feeding restriction and meal pattern of a sugar beet-containing diet and control diet on nutrient digestibility, plasma lipid concentrations and postprandial triaclyglycerol response in broiler chickens. **71**, 389, 1994
Digestibility of energy, protein, fat and non-starch polysaccharides in mixed diets: comparative studies between man and the rat. **71**, 471, 1994
Involvement of small intestinal motility in blood glucose response to dietary fibre in man. **71**, 675, 1994
Evaluation of fermentability of acid-treated maize husk by rat caecal bacteria *in vivo* and *in vitro*. **71**, 719, 1994

Digestibility
Digestibility of energy, protein, fat and non-starch polysaccharides in mixed diets: comparative studies between man and the rat. **71**, 471, 1994

Digestion
Intestinal nitrogen and electrolyte movements following fermented milk ingestion in man. **71**, 169, 1994
Seasonality in digestion and rumen metabolism in red deer (*Cervus elaphus*) fed on a forage diet. **71**, 489, 1994

Docosahexaenoic acid
The influence of different amounts of *n*-3 polyunsaturated fatty acids on bleeding time and *in vivo* vascular reactivity. **71**, 43, 1994

Editorial
Australian dreamtime. **71**, 1, 1994
Declarations of interest. **71**, 139, 1994
Directions from Contributors. **71**, 307, 1994
Time to Decide. **71**, 455, 1994
Rate-Limiting Actions. **71**, 645, 1994
Tribes and Professions. **71**, 799, 1994

EFA deficiency
Changes in fatty acid compositions of total serum and lipoprotein particles, in growing rats given protein-deficient diets with either hydrogenated coconut or salmon oils as fat sources. **71**, 375, 1994

Effective energy
Effective energy: a concept of energy utilization applied across species. **71**, 801, 1994

Efficiency of protein utilization
The effect of breed on the relationship between food composition and the efficiency of protein utilization in pigs. **71**, 849, 1994

Eicosapentaenoic acid
The influence of different amounts of *n*-3 polyunsaturated fatty acids on bleeding time and *in vivo* vascular reactivity. **71**, 43, 1994

Elderly
Parental death from cardiovascular disease and dietary habits in an elderly group. **71**, 259, 1994
Anthropometric values in an elderly French population. **71**, 295, 1994
Prediction equations for the estimation of body composition in the elderly using anthropometric data. **71**, 823, 1994

Electrolytes
Intestinal nitrogen and electrolyte movements following fermented milk ingestion in man. **71**, 169, 1994

Electromyography
Involvement of small intestinal motility in blood glucose response to dietary fibre in man. **71**, 675, 1994

Energy intake
The effect of breed on the relationship between food composition and the efficiency of protein utilization in pigs. **71**, 849, 1994

Energy restriction
Body composition and fat distribution during the first 2 weeks of gestation in *ad lib.*-fed and energy-restricted rats. **71**, 317, 1994

Energy utilization
Modification of energy metabolism by the presence of the gut microflora in the chicken. **71**, 709, 1994

Exercise
Trends in eating patterns, physical activity and socio-demographic factors in relation to post-partum body weight development. **71**, 457, 1994

Fat distribution
Body composition and fat distribution during the first 2 weeks of gestation in *ad lib.*-fed and energy-restricted rats. **71**, 317, 1994

Fat intake
The effect of dietary lipid changes on the fatty acid composition and function of liver, heart and brain mitochondria in the rat at different ages. **71**, 193, 1994
Principal sources of dietary fat in Australia: evidence from apparent consumption data and the national dietary survey of adults. **71**, 753, 1994

Trends in individual fat consumption in the UK 1900–1985. **71**, 775, 1994

Fatty acids
Dietary indices of atherogenicity and thrombogenicity and ischaemic heart disease risk: the Caerphilly Prospective Study. **71**, 249, 1994
Effects of feeding restriction and meal pattern of a sugar beet-containing diet and control diet on nutrient digestibility, plasma lipid concentrations and postprandial triaclyglycerol response in broiler chickens. **71**, 389, 1994
The influence of dietary fatty acid composition on *N*-ethyl-*N*-nitrosourea-induced mammary tumour incidence in the rat and on the composition of inositol- and ethanolamine-phospholipids of normal and tumour mammary tissue. **71**, 543, 1994

Feed intake
Maternal protein reserves and their influence on lactational performance in rats. **71**, 13, 1994
Effect of food intake on energy and protein metabolism in the skin of Romney sheep. **71**, 647, 1994

Feeding frequency
Effects of feeding restriction and meal pattern of a sugar beet-containing diet and control diet on nutrient digestibility, plasma lipid concentrations and postprandial triaclyglycerol response in broiler chickens. **71**, 389, 1994

Femur
Calcium absorption and bone utilization in spontaneously hypertensive rats fed on native and heat-damaged casein and soya-bean protein. **71**, 583, 1994

Fermented milk proteins
Intestinal nitrogen and electrolyte movements following fermented milk ingestion in man. **71**, 169, 1994

Ferric hydroxypyranone
Absorption of iron from ferric hydroxypyranone complexes. **71**, 203, 1994

Food supply data
Principal sources of dietary fat in Australia: evidence from apparent consumption data and the national dietary survey of adults. **71**, 753, 1994

Forage
Forage and splanchnic tissue mass in growing lambs: effects of dietary forage levels and source on splanchnic tissue mass in growing lambs. **71**, 141, 1994

Galactose
The response in the blood of piglets to oral doses of galactose and glucose and intravenous administration of galactose. **71**, 553, 1994

Gastric inhibitory polypeptide
The effect of triacylglycerol fatty acid positional distribution on postprandial plasma metabolite and hormone responses in normal adult men. **71**, 401, 1994

Gastrointestinal contents
Effect of soluble dietary fibre on the viscosity of gastrointestinal contents and the acute glycaemic response in the rat. **71**, 563, 1994

Gastrointestinal tract
Protein synthesis in splanchnic tissues of sheep offered two levels of intake. **71**, 3, 1994

Gestation
Body composition and fat distribution during the first 2 weeks of gestation in *ad lib.*-fed and energy-restricted rats. **71**, 317, 1994

Glucose
The response in the blood of piglets to oral doses of galactose and glucose and intravenous administration of galactose. **71**, 553, 1994

Glycaemia
Involvement of small intestinal motility in blood glucose response to dietary fibre in man. **71**, 675, 1994

Growth
Dietary level of maize oil affects growth and lipid composition of Walker 256 carcinosarcoma. **71**, 283, 1994
Body composition and fat distribution during the first 2 weeks of gestation in *ad lib.*-fed and energy-restricted rats. **71**, 317, 1994

Guanidination
Use of guanidinated dietary protein to measure losses of endogenous amino acids in poultry. **71**, 515, 1994

Gut microflora
Modification of energy metabolism by the presence of the gut microflora in the chicken. **71**, 709, 1994

Haemolysis
Bioefficiency of different tocopherols in chicken as assessed by haemolysis test and microsomal pentane production. **71**, 605, 1994

Haemostasis
The influence of different amounts of *n*-3 polyunsaturated fatty acids on bleeding time and *in vivo* vascular reactivity. **71**, 43, 1994

Heat production
Modification of energy metabolism by the presence of the gut microflora in the chicken. **71**, 709, 1994

Heated oils
Consumption of thermally-oxidized sunflower oil by chicks reduces α-tocopherol status and increases susceptibility of tissues to lipid oxidation. **71**, 53, 1994

High-carbohydrate meal
The effect of meal size on the cardiovascular responses to feed ingestion. **71**, 835, 1994

Homoarginine
Use of guanidinated dietary protein to measure losses of endogenous amino acids in poultry. **71**, 515, 1994

Ileal digestibility
Utilization of ileal digestible amino acids by growing pigs: tryptophan. **71**, 345, 1994
Utilization of ileal digestible amino acids by growing pigs: isoleucine. **71**, 531, 1994

Ileo-rectal anastomosis
Effect of baked beans (*Phaseolus vulgaris*) on steroid metabolism and non-starch polysaccharide output of hypercholesterolaemic pigs with or without an ileo-rectal anastomosis. **71**, 871, 1994

Immune function
The immunological and long-term atopic outcome of infants born to women following a milk-free diet during late pregnancy and lactation: a pilot study. **71**, 223, 1994
Level of nutrition and age at weaning: effects on humoral immunity in young calves. **71**, 239, 1994
The effect of delayed weaning on the development of oral tolerance to soya-bean protein in pigs. **71**, 615, 1994

Infant allergy
The immunological and long-term atopic outcome of infants born to women following a milk-free diet during late pregnancy and lactation: a pilot study. **71**, 223, 1994

Infants
A double stable isotope technique for measuring iron absorption in infants. **71**, 411, 1994

Insulin
The effect of triacylglycerol fatty acid positional distribution on postprandial plasma metabolite and hormone responses in normal adult men. **71**, 401, 1994
The effects of energy source and tryptophan on the rate of protein synthesis and on hormones of the entero-insular axis in the piglet. **71**, 661, 1994

Intelligence
Dietary intake and micronutrient status of adolescents: effect of vitamin and trace element supplementation on indices of status and performance in tests of verbal and non-verbal intelligence. **71**, 897, 1994

Intestinal motility
Involvement of small intestinal motility in blood glucose response to dietary fibre in man. **71**, 675, 1994

Iron
$NaFe^{3+}EDTA$ as a food fortificant: influence on zinc, calcium and copper metabolism in the rat. **71**, 85, 1994
Iron, copper and zinc status in rats fed on diets containing various concentrations of tin. **71**, 103, 1994
Absorption of iron from ferric hydroxypyranone complexes. **71**, 203, 1994
A double stable isotope technique for measuring iron absorption in infants. **71**, 411, 1994
Comparison between time-dependent changes in iron metabolism of rats as induced by marginal deficiency of either vitamin A or iron. **71**, 687, 1994
Increasing intakes of iron reduce status, absorption and biliary excretion of copper in rats. **71**, 887, 1994

Ischaemic heart disease
Dietary indices of atherogenicity and thrombogenicity and ischaemic heart disease risk: the Caerphilly Prospective Study. **71**, 249, 1994

Isoleucine
Utilization of ileal digestible amino acids by growing pigs: isoleucine. **71**, 531, 1994

Isomalt
Breath hydrogen after ingestion of the bulk sweeteners sorbitol, isomalt and sucrose in chocolate. **71**, 731, 1994

Lactation
Maternal protein reserves and their influence on lactational performance in rats. **71**, 13, 1994

Large-bowel fermentation
Diurnal changes in large-bowel metabolism: short-chain fatty acids and transit time in rats fed on wheat bran. **71**, 209, 1994

Leaf proteins
Proanthocyanidins inhibit hydrolysis of leaf proteins by rumen microflora *in vitro*. **71**, 947, 1994

Learning ability
Nutrition education of young women. **71**, 789, 1994

Level of nutrition
Level of nutrition and age at weaning: effects on humoral immunity in young calves. **71**, 239, 1994

Linoleic acid
Dietary level of maize oil affects growth and lipid composition of Walker 256 carcinosarcoma. **71**, 283, 1994

Lipid peroxidation
Consumption of thermally-oxidized sunflower oil by chicks reduces α-tocopherol status and increases susceptibility of tissues to lipid oxidation. **71**, 53, 1994

Lipids
Dietary level of maize oil affects growth and lipid composition of Walker 256 carcinosarcoma. **71**, 283, 1994

Lipoproteins
Determinants of plasma cholesterol responsiveness to diet. **71**, 271, 1994

Liquid diet
Improved nitrogen metabolism in rats fed on lipid-rich liquid diets. **71**, 361, 1994

Liquid outflow
Osmotic pressure, water kinetics and volatile fatty acid absorption in the rumen of sheep sustained by intragastric infusions. **71**, 153, 1994

Liver
Protein synthesis in splanchnic tissues of sheep offered two levels of intake. **71**, 3, 1994

Malnutrition
Persistent diarrhoea: efficacy of a rice-based diet and role of nutritional status in recovery and nutrient absorption. **71**, 123, 1994

Mammary tumour
The influence of dietary fatty acid composition on *N*-ethyl-*N*-nitrosourea-induced mammary tumour incidence in the rat and on the composition of inositol- and ethanolamine-phospholipids of normal and tumour mammary tissue. **71**, 543, 1994

Meal size
The effect of meal size on the cardiovascular responses to feed ingestion. **71**, 835, 1994

Metabolic enzymes
The effect of dietary lipid changes on the fatty acid composition and function of liver, heart and brain mitochondria in the rat at different ages. **71**, 193, 1994

Metabolic rate
The cardiovascular, metabolic and hormonal

changes accompanying acute starvation in men and women. **71**, 437, 1994

Metabolizable energy
Effective energy: a concept of energy utilization applied across species. **71**, 801, 1994

Methylmalonic acid
Cobalt–vitamin B_{12} deficiency causes accumulation of odd-numbered, branched-chain fatty acids in the tissues of sheep. **71**, 67, 1994

Micronutrient supplementation
Dietary intake and micronutrient status of adolescents: effect of vitamin and trace element supplementation on indices of status and performance in tests of verbal and non-verbal intelligence. **71**, 897, 1994

Milk-free diet
The immunological and long-term atopic outcome of infants born to women following a milk-free diet during late pregnancy and lactation: a pilot study. **71**, 223, 1994

Mineral metabolism
Passive uptake in the small intestine and active uptake in the hindgut contribute to the highly efficient mineral metabolism of the common mole-rat, *Cryptomys hottentotus*. **71**, 573, 1994

Mitochondrial fatty acids
The effect of dietary lipid changes on the fatty acid composition and function of liver, heart and brain mitochondria in the rat at different ages. **71**, 193, 1994

Mole-rat
Passive uptake in the small intestine and active uptake in the hindgut contribute to the highly efficient mineral metabolism of the common mole-rat, *Cryptomys hottentotus*. **71**, 573, 1994

Motivation
Nutrition education of young women. **71**, 789, 1994

$NaFe^{3+}EDTA$
$NaFe^{3+}EDTA$ as a food fortificant: influence on zinc, calcium and copper metabolism in the rat. **71**, 85, 1994

Nitrogen metabolism
Improved nitrogen metabolism in rats fed on lipid-rich liquid diets. **71**, 361, 1994

Non-insulin-dependent diabetes mellitus
Effect of alcohol on glucose, insulin, free fatty acid and triacylglycerol responses to a light meal in non-insulin-dependent diabetic subjects. **71**, 449, 1994

Noradrenaline
The influence of different amounts of *n*-3 polyunsaturated fatty acids on bleeding time and *in vivo* vascular reactivity. **71**, 43, 1994

Nutrient status
Dietary intake and micronutrient status of adolescents: effect of vitamin and trace element supplementation on indices of status and performance in tests of verbal and non-verbal intelligence. **71**, 897, 1994

Nutrition education
Nutrition education of young women. **71**, 789, 1994

Oat bran
Effects of rye bran, oat bran and soya-bean fibre on bile composition, gallstone formation, gall-bladder morphology and serum cholesterol in Syrian golden hamsters (*Mesocricetus auratus*). **71**, 861, 1994

Osmotic pressure
Osmotic pressure, water kinetics and volatile fatty acid absorption in the rumen of sheep sustained by intragastric infusions. **71**, 153, 1994

Osteogenic disorder
Vitamin B_6 deficiency experimentally-induced bone and joint disorder: microscopic, radiographic and biochemical evidence. **71**, 919, 1994

Osteoid mineralization
Vitamin B_6 deficiency experimentally-induced bone and joint disorder: microscopic, radiographic and biochemical evidence. **71**, 919, 1994

Overfeeding
Improved nitrogen metabolism in rats fed on lipid-rich liquid diets. **71**, 361, 1994

Pectin
A study on lipid metabolism in heart and liver of cholesterol- and pectin-fed rats. **71**, 181, 1994

Pentane
Bioefficiency of different tocopherols in chicken as assessed by haemolysis test and microsomal pentane production. **71**, 605, 1994

Persistent diarrhoea
Persistent diarrhoea: efficacy of a rice-based diet and role of nutritional status in recovery and nutrient absorption. **71**, 123, 1994

Phospholipids
The influence of dietary fatty acid composition on *N*-ethyl-*N*-nitrosourea-induced mammary tumour incidence in the rat and on the composition of inositol- and ethanolamine-phospholipids of normal and tumour mammary tissue. **71**, 543, 1994

Plasma cholesterol
Determinants of plasma cholesterol responsiveness to diet. **71**, 271, 1994
Effect of baked beans (*Phaseolus vulgaris*) on steroid metabolism and non-starch polysaccharide output of hypercholesterolaemic pigs with or without an ileo-rectal anastomosis. **71**, 871, 1994

Plasma lipids
Effects of feeding restriction and meal pattern of a sugar beet-containing diet and control diet on nutrient digestibility, plasma lipid concentrations and postprandial triaclyglycerol response in broiler chickens. **71**, 389, 1994
Plasma lipid concentrations in children with cystic fibrosis: the value of a high-fat diet and pancreatic supplementation. **71**, 959, 1994

Polyphenols
Degradation of polyphenols (catechin and tannic acid) in the rat intestinal tract. Effect on colonic fermentation and faecal output. **71**, 933, 1994

Postprandial lipaemia
The effect of triacylglycerol fatty acid positional distribution on postprandial plasma metabolite and hormone responses in normal adult men. **71**, 401, 1994

Postprandial metabolic rate
No substantial reduction of the thermic effect of a

meal during pregnancy in well-nourished Dutch women. **71**, 335, 1994

Pregnancy

No substantial reduction of the thermic effect of a meal during pregnancy in well-nourished Dutch women. **71**, 335, 1994

Trends in eating patterns, physical activity and socio-demographic factors in relation to post-partum body weight development. **71**, 457, 1994

Premenopausal women

Dietary calcium intake relates to bone mineral density in premenopausal women. **71**, 77, 1994

Proanthocyanidins

Proanthocyanidins inhibit hydrolysis of leaf proteins by rumen microflora *in vitro*. **71**, 947, 1994

Protein

Calcium absorption and bone utilization in spontaneously hypertensive rats fed on native and heat-damaged casein and soya-bean protein. **71**, 583, 1994

Protein deficiency

Changes in fatty acid compositions of total serum and lipoprotein particles, in growing rats given protein-deficient diets with either hydrogenated coconut or salmon oils as fat sources. **71**, 375, 1994

Protein intake

The effect of breed on the relationship between food composition and the efficiency of protein utilization in pigs. **71**, 849, 1994

Protein mobilization

Maternal protein reserves and their influence on lactational performance in rats. **71**, 13, 1994

Protein synthesis

Protein synthesis in splanchnic tissues of sheep offered two levels of intake. **71**, 3, 1994

The effect of acute and chronic administration of the β-agonist, cimaterol, on protein synthesis in ovine skin and muscle. **71**, 501, 1994

The effects of energy source and tryptophan on the rate of protein synthesis and on hormones of the entero-insular axis in the piglet. **71**, 661, 1994

Proximal colon

Absorption of lysine and methionine from the proximal colon of the piglet. **71**, 739, 1994

Pyridoxine deficiency

Vitamin B_6 deficiency experimentally-induced bone and joint disorder: microscopic, radiographic and biochemical evidence. **71**, 919, 1994

Red deer

Seasonality in digestion and rumen metabolism in red deer (*Cervus elaphus*) fed on a forage diet. **71**, 489, 1994

Rice-based diet

Persistent diarrhoea: efficacy of a rice-based diet and role of nutritional status in recovery and nutrient absorption. **71**, 123, 1994

Rumen

Osmotic pressure, water kinetics and volatile fatty acid absorption in the rumen of sheep sustained by intragastric infusions. **71**, 153, 1994

Seasonality in digestion and rumen metabolism in red deer (*Cervus elaphus*) fed on a forage diet. **71**, 489, 1994

Rumen microflora

Proanthocyanidins inhibit hydrolysis of leaf proteins by rumen microflora *in vitro*. **71**, 947, 1994

Rye bran

Effects of rye bran, oat bran and soya-bean fibre on bile composition, gallstone formation, gall-bladder morphology and serum cholesterol in Syrian golden hamsters (*Mesocricetus auratus*). **71**, 861, 1994

Salmon oil

Changes in fatty acid compositions of total serum and lipoprotein particles, in growing rats given protein-deficient diets with either hydrogenated coconut or salmon oils as fat sources. **71**, 375, 1994

Scotland

Dietary patterns among adolescents in the West of Scotland. **71**, 111, 1994

Serum lipids

Parental death from cardiovascular disease and dietary habits in an elderly group. **71**, 259, 1994

Effects of rye bran, oat bran and soya-bean fibre on bile composition, gallstone formation, gall-bladder morphology and serum cholesterol in Syrian golden hamsters (*Mesocricetus auratus*). **71**, 861, 1994

Sex differences

The cardiovascular, metabolic and hormonal changes accompanying acute starvation in men and women. **71**, 437, 1994

Short-chain fatty acids

Diurnal changes in large-bowel metabolism: short-chain fatty acids and transit time in rats fed on wheat bran. **71**, 209, 1994

Evaluation of fermentability of acid-treated maize husk by rat caecal bacteria *in vivo* and *in vitro*. **71**, 719, 1994

Spontaneously hypertensive rats

Calcium absorption and bone utilization in spontaneously hypertensive rats fed on native and heat-damaged casein and soya-bean protein. **71**, 583, 1994

Skin

The effect of zinc deficiency on wool growth and skin and wool follicle histology of male Merino lambs. **71**, 425, 1994

Effect of food intake on energy and protein metabolism in the skin of Romney sheep. **71**, 647, 1994

Social factors

Trends in eating patterns, physical activity and socio-demographic factors in relation to post-partum body weight development. **71**, 457, 1994

Soluble fibre

Effect of soluble dietary fibre on the viscosity of gastrointestinal contents and the acute glycaemic response in the rat. **71**, 563, 1994

Sorbitol

Breath hydrogen after ingestion of the bulk

sweeteners sorbitol, isomalt and sucrose in chocolate. **71**, 731, 1994

Soya bean
The effect of delayed weaning on the development of oral tolerance to soya-bean protein in pigs. **71**, 615, 1994

Soya-bean fibre
Effects of rye bran, oat bran and soya-bean fibre on bile composition, gallstone formation, gall-bladder morphology and serum cholesterol in Syrian golden hamsters (*Mesocricetus auratus*). **71**, 861, 1994

Splanchnic tissue mass
Forage and splanchnic tissue mass in growing lambs: effects of dietary forage levels and source on splanchnic tissue mass in growing lambs. **71**, 141, 1994

Stable isotopes
Assessment of zinc bioavailability: studies in rats on zinc absorption from wheat using radio- and stable isotopes. **71**, 95, 1994
A double stable isotope technique for measuring iron absorption in infants. **71**, 411, 1994

Starvation
The cardiovascular, metabolic and hormonal changes accompanying acute starvation in men and women. **71**, 437, 1994

Steroid metabolism
Effect of baked beans (*Phaseolus vulgaris*) on steroid metabolism and non-starch polysaccharide output of hypercholesterolaemic pigs with or without an ileo-rectal anastomosis. **71**, 871, 1994

Sucrose
Breath hydrogen after ingestion of the bulk sweeteners sorbitol, isomalt and sucrose in chocolate. **71**, 731, 1994

Sugar beet
Effects of feeding restriction and meal pattern of a sugar beet-containing diet and control diet on nutrient digestibility, plasma lipid concentrations and postprandial triaclyglycerol response in broiler chickens. **71**, 389, 1994

Tannic acid
Degradation of polyphenols (catechin and tannic acid) in the rat intestinal tract. Effect on colonic fermentation and faecal output. **71**, 933, 1994

Thermal ionization mass spectrometry
A double stable isotope technique for measuring iron absorption in infants. **71**, 411, 1994

Thermic effect
No substantial reduction of the thermic effect of a meal during pregnancy in well-nourished Dutch women. **71**, 335, 1994

Tin
Iron, copper and zinc status in rats fed on diets containing various concentrations of tin. **71**, 103, 1994

α-Tocopherol
Consumption of thermally-oxidized sunflower oil by chicks reduces α-tocopherol status and increases susceptibility of tissues to lipid oxidation. **71**, 53, 1994

Transit time
Diurnal changes in large-bowel metabolism: short-chain fatty acids and transit time in rats fed on wheat bran. **71**, 209, 1994

Translational efficiency
Protein synthesis in splanchnic tissues of sheep offered two levels of intake. **71**, 3, 1994

Triacylglycerols
The effect of triacylglycerol fatty acid positional distribution on postprandial plasma metabolite and hormone responses in normal adult men. **71**, 401, 1994

Trypsin
Effect of condensed tannins in hulls of faba beans (*Vicia faba* L.) on the activities of trypsin (*EC* 2.4.21.4) and chymotrypsin (*EC* 2.4.21.1) in digesta collected from the small intestine of pigs. **71**, 627, 1994

Tryptophan
Utilization of ileal digestible amino acids by growing pigs: tryptophan. **71**, 345, 1994
The effects of energy source and tryptophan on the rate of protein synthesis and on hormones of the entero-insular axis in the piglet. **71**, 661, 1994

Urea cycle
Improved nitrogen metabolism in rats fed on lipid-rich liquid diets. **71**, 361, 1994

VFA absorption
Osmotic pressure, water kinetics and volatile fatty acid absorption in the rumen of sheep sustained by intragastric infusions. **71**, 153, 1994

Viscosity
Effect of soluble dietary fibre on the viscosity of gastrointestinal contents and the acute glycaemic response in the rat. **71**, 563, 1994

Vitamin A
Comparison between time-dependent changes in iron metabolism of rats as induced by marginal deficiency of either vitamin A or iron. **71**, 687, 1994

Vitamin B_{12}
Cobalt–vitamin B_{12} deficiency causes accumulation of odd-numbered, branched-chain fatty acids in the tissues of sheep. **71**, 67, 1994

Vitamin E
Bioefficiency of different tocopherols in chicken as assessed by haemolysis test and microsomal pentane production. **71**, 605, 1994

Walker 256 carcinosarcoma
Dietary level of maize oil affects growth and lipid composition of Walker 256 carcinosarcoma. **71**, 283, 1994

Water absorption
Osmotic pressure, water kinetics and volatile fatty acid absorption in the rumen of sheep sustained by intragastric infusions. **71**, 153, 1994

Weaning
Level of nutrition and age at weaning: effects on humoral immunity in young calves. **71**, 239, 1994
The effect of delayed weaning on the development of oral tolerance to soya-bean protein in pigs. **71**, 615, 1994

Wheat bran
Diurnal changes in large-bowel metabolism: short-chain fatty acids and transit time in rats fed on wheat bran. **71**, 209, 1994

Wool
The effect of zinc deficiency on wool growth and skin and wool follicle histology of male Merino lambs. **71**, 425, 1994
Wool growth
The effect of acute and chronic administration of the β-agonist, cimaterol, on protein synthesis in ovine skin and muscle. **71**, 501, 1994
Zinc
$NaFe^{3+}EDTA$ as a food fortificant: influence on zinc, calcium and copper metabolism in the rat. **71**, 85, 1994
Assessment of zinc bioavailability: studies in rats on zinc absorption from wheat using radio- and stable isotopes. **71**, 95, 1994
Iron, copper and zinc status in rats fed on diets containing various concentrations of tin. **71**, 103, 1994
The effect of zinc deficiency on wool growth and skin and wool follicle histology of male Merino lambs. **71**, 425, 1994
